Significant Substantive Item, Week of 31 December 1979

Analysis of Iranian and Soviet ports has and will continue to consume RSB analytic resources. The Iran situation involves the continuous monitoring of [REDACTED]

25X1

[REDACTED] The possibility of economic sanctions against the Soviet Union dictates that the current grain lift analysis receive additional priority. We provided some graphics of Soviet grain ports for an OER paper for the DCI about the impact of the economic sanctions. Discussions with OER indicate continuing interest in the grain lift, including future briefings for Department of Commerce/Agriculture officials. [REDACTED]
